

TFI Phoenix Project

LOCATION
Murray Bridge SA

CLIENT
Badge Construction

TIMEFRAME
Approx. 2 year hire project

NUMBER OF MODULES
48

Our client BADGE is one of Australia's largest privately-owned builders and has begun building the most advanced multi-species processing facility in Australia. Situated in Murray Bridge in SA, the new facilities for Thomas Foods International once fully operational will create around 2000 jobs.

BADGE chose Ausco to provide temporary, transportable facilities for the duration of the project, which is expected to take approximately two years.

With 60 years' experience in transportable buildings, we understand what is involved in establishing a new worksite such as the one for BADGE.

These photographs show the remoteness of where many of our hire buildings are located for long durations. Additional buildings will be transported to this site as the project progresses, totally 48.
