

Add-on products and services

Ausco Modular's wide range of add-on products and services will meet your site requirements, quality expectations and budgets. Chat with our friendly team to ensure your site set up is completed hassle-free.

Building Renter Protection

A simple, cost-effective but comprehensive alternative to standard property insurance for peace of mind.

Climate control

Air conditioning to keep your modular buildings cool on site.

Coverflex

Ausco Modular's covered walkway solution allowing for a quicker setup on your site.

Eco upgrades

Take the guesswork out of compliance with Ausco Modular's Eco upgrade service.

Furniture and accessories

Furniture and accessories for offices, lunchrooms and meeting rooms, including whitegoods for kitchens.

Generators 20KVA - 1250KVA

Reliable power for your site.

Hygiene services

Keep amenities on site fresh. A regular servicing add-on is available.

SealSafe

Ausco Modular's innovative system making the installation of complexed modules safer and faster by eliminating the need to access the roof when working at heights.

Steps and landings

Easy ingress and egress to your modular buildings.

Timed delivery

Deliveries scheduled for your convenience.

Waste tank 4000 & 6000L

Large capacity waste storage tank with full-service options available.

Water tank

5000L skid mounted freshwater tank complete with pump for areas where connection to services is unavailable.
